NEW "ALUMINUM" WARE.

Superior To SILVER PLATE.

"Aluminum" Ware makes a bold bid for a large postion of the sliver-plated ware trade, and ask for it solely upon its merits. "Aluminum" is a substance extracted from clay, and articles manufactured from it have many advantages over silver-plated ware. Silver-plated ware tarnishes and "Aluminum" does not. "Aluminum" is considerably lighter, is more readily worked into shapes and is also more durable. Yet the greatest feature of "Aluminum" ware is its inexpensiveness, for although better than silver-plated ware it is sold at about half its price. Ours is the only house in Washington that had the foresight to secure a large lot of this ware, we having just received our own direct importa-tion from Carl Obermann & Co. of Germany. This importation embraces Bon-bon Boxes and Dishes, Necklaces, Bracelets, Jewel Cases, Card Case, Comb. and Brack. Card Cases, Comb and Brush Cases, Purses, Cigarette and Cigar Cases, Card Trays, Match Safes, Ash Receivers, Toothpick Holders, Indi-vidual Salts, Individual Butters, Napkin Rings, Wine and Water Sets, Butter Dishes, Combination Pepper, Sait and Butter Sets, Envelope Holders, Hand Mirrors, Hairpins, Pen Hold-ders, Crumb Tray and Brush, Drinking Cups,
